**Corrosion Coupon**

The Rohrback Cosasco Systems RSL Retriever is the newest innovation from the leader in high pressure access equipment. This precision tool allows safe, easy insertion and removal of various equipments and tools through the industry-standard Rohrback Cosasco Systems Access Fitting – while the pipeline or vessel is under pressure.

COSASCO® Coupons are specially made for corrosion and erosion studies and are manufactured to the most demanding standards. Generally, coupons should be of an alloy the same as, or similar in chemical composition to the pipeline or vessel that is being monitored.
